Art Unit: 3673

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12, 19-30, 40-55, drawn to a support member, classified in class 5, subclass 285.
- II. Claims 13-18, 31-39, drawn to a leg system, classified in class 5, subclass 310.
- III. Claims 56-58, drawn to a wooden side rail, classified in class 5, subclass 286.

The inventions are distinct, each from the other because:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, ~~invention~~ each invention of the three subcombinations has separate utility such as inventions I, II, and III could be used separately with all kinds of bed frames or any other kind of frames. For example: leg claim 35 has no limitations whatsoever to a bed frame or bed structure. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Rathbun on 9/29/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

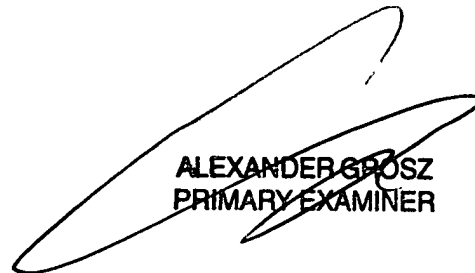

Art Unit: 3673

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Mr. Rathbun indicated that if the invention of Group I will be elected, in order to expedite prosecution, he will consider electing one of the patentable species of Group I.

In response to this action applicant is urged to identify each and every element of the claims with reference to the drawings, with numerals in parentheses. Such numerals will aid in more easily "following" the claims and will help in avoiding "mistakes" but will not in any way limit the scopes of the claims.

Any inquiry concerning this communication should be directed to Alex Grosz at telephone number (703) 308-2498.
